COMMUNICATION

**Mail Stop Amendment**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

This submission is in response to the Notice of Non-Compliant Amendment dated May 17, 2010, which cites the sequence listing as insufficient because no "source organism" is identified for the listed peptide sequences. Accompanying this submission is a revised Sequence Listing as a text file and as a pdf file. In the revised Sequence Listing, additional descriptive information is provided for each peptide; however, there is no "source organism" for the artificial peptides. As such, the revised Sequence Listing is in no way deficient. Applicants request entry of the revised Sequence Listing presented herewith pursuant to the amendment filed March 30, 2010.

Respectfully submitted,

Date: May 27, 2010

/Edwin V. Merkel/
